### **Lake Naivasha**

After breakfast we depart Hotel Rudi and enjoy a scenic trip with Anthony our driver.. as we cross the Great Rift Valley, arriving at **Elsamere** on Lake Naivasha in time for lunch.

Once a holiday home and later to be a retirement home for the Adamsons, Elsamere remains a unique destination in Naivasha. Over 400 species of birdlife have been recorded here, and the lake has a "sizable" hippo population. The home has been largely preserved as Joy left it, including a number of beautiful paintings.

After lunch we have time to relax, unwind, and immerse ourselves in the history of Joy and George Adamson.

### **Lake Naivasha**

This morning we have an amazing boat ride to **Crescent Island**, observing nearby hippos in the water, African Fish Eagles in the sky, and many of the other 400 species of birds that call this region home.

Upon arrival at Crescent Island, we take a guided walk by a resident expert on the flora and fauna of this game rich peninsula in Lake Naivasha. We return to Elsamere for lunch.

Time permitting we tour an area rose farm. Kenya is one of the leading flower exporters in the world. An in depth visit is unforgettable.
